Personal Statement

Full-stack engineer with strong backend depth and 3 years across payments and SaaS. Build reliable APIs in Python and Node.js, ship React frontends when needed, and care about clean, tested, well-documented code.

Work Experience

Software Engineer - Nyota Digital, Accra

Jan 2023 - Present

- Build and maintain backend microservices (Node.js and Python/FastAPI) for a B2B billing platform
- Design PostgreSQL schemas and write optimized queries for reporting workloads
- Deploy on GCP (Cloud Run, Cloud SQL) with Docker; maintain CI/CD via GitLab CI
- Develop internal React dashboards for operations teams

Junior Software Developer - Duka Cloud, Accra

Aug 2021 - Dec 2022

- Built REST endpoints in Django for an e-commerce SaaS
- Wrote automated tests and participated in peer code reviews
- Integrated Paystack payment gateway and webhook handling

Education

BSc Software Engineering - Kwame Nkrumah University of Science and Technology (2017 - 2021)

Skills

Python, Django, FastAPI, Node.js (Express), React, PostgreSQL, Docker, GCP, Git, GitLab CI, REST APIs, Jest, Agile/Scrum
